

Professor Mircea Rusu Mentor and Founder Member of GIIF and Astroclub “MERIDIAN 0”

N. Pazmany¹ and T. Berger²

¹ CT. M. Viteazul – Oradea, Romania

² Lic. O. Ghibu – Oradea, Romania

As founder members of GIIF (Group of Initiative for Learning Physics) we collaborated with Prof. Mircea Rusu on countless projects from which we will present just two: 1) participation in the WYP (“Physics Enightens the World” – an event where people of the world, over 120.000 from 47 countries, participated in a relay of light to commemorate the 50th anniversary of Albert Einstein’s death on April 18, 2005), 2) foundation of Astroclub “Meridian 0” which is trying to bring to life an older tradition of Oradea Fortress, where used to be one of the first astronomical observatory from Europe, founded in XVth century.
